Document Destruction Policy

Article I

Purpose

The purpose of the Document Destruction Policy is to protect this tax-exempt organization's (PBAT) non-profit status by providing operating procedures for the retention and eventual destruction of the organizations documents. The Sarbanes-Oxley Act addresses the destruction of business records and documents and turns intentional document destruction into a process that must be carefully monitored.

Nonprofit organizations should have a written, mandatory document retention and periodic destruction policy. Policies such as this will eliminate accidental or innocent destruction. In addition, it is important for administrative personnel to know the length of time records should be retained to be in compliance.

This policy is intended to supplement but not replace any applicable state and federal laws governing nonprofit and charitable organizations.

PBAT shall retain records for the period of their immediate or current use, unless longer retention is necessary for historical reference or to comply with contractual or legal requirements. Records and documents outlined in this policy includes paper, electronic files (including e-mail) and voicemail records regardless of where the document is stored, including network servers, desktop or laptop computers and handheld computers and other wireless devices with text messaging capabilities.

In accordance with 18 U.S.C. Section 1519 and the Sarbanes Oxley Act, PBAT shall not knowingly destroy a document with the intent to obstruct or influence an "investigation or proper administration of any matter within the jurisdiction of any department agency of the United States . . . or in relation to or contemplation of such matter or case." If an official investigation is underway or even suspected, document purging must stop in order to avoid criminal obstruction.

In order to eliminate accidental or innocent destruction, PBAT has the following document retention requirements.
